## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the CLF3 adhered to the surface must be shown must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 22-28, 35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 22 refers to adhering to the surface of the object which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-28, 33-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Gray.

Gray shows a processing vessel in which an object to be processed is placed (16, fig. 1), a CLF3 supplier for supplying CLF3 into the processing vessel (46, fig. 1, col. 6, lines 32-33), a promoter for promoting the adhesion of CLF3 gas to a surface of the object to be processed (36, fig. 1), an evacuator for evacuating CLF3 gas from the processing vessel (44, fig. 1), an activator for activating CLF3 gas adhered to the surface of the object so as to remove an oxide formed on the surface of the object by using the CLF3 adhered to the surface of the object, an activator for activating the CLF3 gas supplied in the processing vessel (col. 9, lines 26-27, col. 10, line 34, fig. 10), a mount located on the processing vessel for setting the object to be processed thereon (32, fig. 1), the promoter is provided on the mount thereby cooling the object to be processed on the mount (36, fig. 1), the activator heats the object to be processed in a heating position at a distance from an object setting position of the object on the mount (col. 9, lines 25-48), an elevator for moving the object to be processed up and down between the object setting position and the heating position (40, fig. 1), a transport chamber for maintaining a non reactive atmosphere therein and for transporting an object to be processed in the nonreactive atmosphere to and from the apparatus for surface treatment (col. 11, lines 33-36); and at least one processing apparatus for transporting the object to be processed to and from the transport chamber (100, fig.

Art Unit: 3749

4), the apparatus for surface treatment is a metal wiring formation chamber for making metal wiring on the object to be processed (108, fig. 4), a reducer supplier for supplying a reducing gas into the processing vessel (col. 9, lines 13-21).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
